

## Vehicle Care

Product Name: **Vehicle Wash**

Appearance : **Red Fluid**

Odour: **Bland**

Description:

**The vehicle wash is a combination of surface active agents, sequestrants and alkaline builders designed for use in the cleaning for heavy duty vehicles, trucks, lorries and boats by using it in hot or cold water. This reduces the need for chemical agitation during the cleaning process and rapidly lifts, disperses and removes traffic films from vehicles. It is ideal for hot or cold pressure wash and is biodegradable**

Product Name: **Vehicle Wash & Wax**

Appearance : **Blue**

Odour: **Bland**

Description:

**Vehicle Wash & Wax is a specially developed biodegradable, blend of surfactants for the cleaning of vehicle body work. Ideal for use on cars, vans, coaches, lorries, trains, boats etc. It is solvent free, non caustic**

**and high foaming. Can be applied via pressure washer systems or hand cleaning.**

Product Name: **Stain Off for Windows & Walls**

Appearance : **Pink**

Odour: **Bland**

Description:

**Stain-off for windows & walls is a specially developed biodegradable, fast acting acid cleaner which can be used to clean windows & walls. Ideal for removing borehole stains and residues off windows & walls. It easily removes rust oxide. It is safe on most paints, metals, rubbers and lacquered wheels and effective in hard or soft waters. It can be applied via brush washers, spray arches or hand cleaning**

Product Name: **Carpet & Upholstery Cleaner**

Appearance : **Purple**

Odour: **Citrus**

Description:

**A ready to use fabric and carpet cleaner ideal for hand cleaning of all types of Floor and Upholstery. Contains a pleasant perfume and a bactericide to neutralise Smells and Germs. Removes a variety of stain in both domestic and automotive environments. Safe on paintwork, metal surfaces, glass and rubber. It is petroleum solvent free, non caustic and biodegradable.**
